The institution is located in a field of 17 acres, con-taining fine shade trees and pleasant grounds for exer-cise for convalescents. From the house, we have the finest prespective view of the city, Cumberland river, and surreunding country, afforded in any other part of the city. As far as regards our success in practice in the healing art, we will only say we have now been in Nashyville one year, and our register will show the names of over 150 patients, treated for various diseases, most of them hopless cases of Chronic Diseases, and 31 of whom were confirmed cases of Consumption, and out of the whole number of 150 odd cases treated, only 6 have died, all of whom were given up as hopeless before I saw them, and every one of the rest have been cured, or at least greatly benefitted.

For the protection of others, we can receive into this institution no patients having contagious diseases, but will attend to such at other places. Family practice attended to as usual.

an attack of paralysis, and having received a benefit

positive that there could be no mistaking the cause

I am now able to use my fingers and my arms, which were entirely helpless, almost, if not quite, as well as I know this notice may inure to the benefit of Dr W., at least with those who place confidence in my word, but to me it is a matter of much greater inpor-tance that my friends should know where they can be relieved from the state of helplessness I was in a JOHN ADAMS. THE common belief that much of the uncertainty of Medical Practice arises from the bad quality of of Medical Practice arises from the bad quality of Medical substances, seems to acquire ally contirmation. Through faulty preparation and commercial competition, many preparations formerly regarded as of primary importance are g adually going out of use, while others produce effects and cause accidents that do not properly belong to them as described in the Pharmacopea. New remedies, as suggested and offered for trial are often found so imperfect, and varying so much in chemical character and sirength that they are either condemned or received upon false premises, both equally at variance with the proper progress in therapeutics; whilst most practitioners daily feel that the Materia Medica is not rich enough either to lose its old remedies, or to sacrifice opportunities of acquiring new ones. A proper appreciation of these facts warrant the Subscribers in manufacturing and vending none but First Class Standard Preparations, with direct reference to the necessities of the profession and the requirements of the Pharmacopez. Cur Chemicals, Powders, Tinctures, Essential Oils, and in fact all of our Medicinal Preparations are sciented and compounded with a view to the quality only, without regard to price.
